## SUMMARY

Inquisitive student with experience in algorithmic programming and SWE aiming to explore the frontier of computation.

## EDUCATION

**Cornell University David A. Duffield College of Engineering** August 2026 - Present
- Courses: OOD and Data Structures (Honors), Mathematical Foundations of Computing, Linear Algebra

**Carnegie Mellon National High School Game Academy** June 2025 - August 2025
- Won Mass Appeal award with original game developed in 3 weeks **(minhn.itch.io/journeytothenest)** as PM on a team of 6.

**Georgia Institute of Technology** August 2024 - May 2026
- All A's in Multi-variable Calculus, Differential Equations, Intro to Computing, Object-Oriented Programming.

**Gwinnett School of Mathematics, Science, and Technology** August 2021 - May 2026
- AP score of 5: CSA, BC, Physics C Mechanics, Physics E&M, Chemistry
- Weighted GPA: 4.41 / 4.0. All A's. SAT: 1570 / 1600. PSAT: 1520 / 1520

## EXPERIENCE

**Intern, Lead Game Developer Dr. Hatfield, University of South Carolina** June 2025 - May 2026
- Demo game (**roblox.com/games/93436821409832**) to **30+** students.
- Ship on deadline in **2** months by virtually tracking **60+** tasks and host meetings.
- Implemented data-collection backend to research interactive education.

**Intern, Software Developer Catchbackcards.com** August 2025 - May 2026
- Developed full-stack mobile app from scratch with authentication backend using Supabase and Expo.

**Founder, Project Manager Computer Science Honor Society (CSHS)** May 2025 - May 2026
- Coordinated **3** project teams winning Samsung Solve for Tomorrow **$1,000** Promising STEM Innovation Award.

**Vice-President, Web Design Instructor Computer Science Club** August 2022 - May 2026
- Hosted bi-weekly meetings educating **20+** peers Git, HTML, JavaScript, React through building personal websites.
- Organized **7+** events, recruited **120+** members, and raised **$241** for CS initiatives.

## PROJECTS

**Tic-Tac-Toe workshop github.com/legitminh/TicTacToeAgent** September 2025 - April 2026
- Trained a reinforcement learning agent from scratch to reach **100%** accurate play after **200,000** episodes.
- Teach **15+** club members q-learning, backpropagation, and gradient descent.

**FocusFlow | HackGwinnett 1st place github.com/legitminh/FocusFlow** November 2025 - December 2025
- Developed eye fatigue monitoring app in a 6-hour hackathon with team of 3
- Responsible for core optical recognition algorithm.

**AstroFest github.com/legitminh/AstroFest** January 2025
- Developed multiplayer combat game with original music composition and procedurally generated battlefields.

**Typing Piano github.com/legitminh/TypingPiano** May 2023 - Present
- Programmed a rhythm game that procedurally generates levels from MIDI and a custom music representation.

## SKILLS

**Languages**: Java, C++, C#, Python, Typescript, HTML, CSS

**Tools**: Linux, Docker, Numpy, Git, Perforce, React, Unity, Linear

**Human Languages**: align(right)[Vietnamese C2, Chinese B1, Spanish A2.],

## AWARDS

| | | |
|---|---|---|
| 2026 | **Bridges Scholarship (61 admitted students)** | Duffield College of Engineering |
| 2026 | **Hunter R. Rawlings III Cornell Presidential Research Scholarship** | Cornell University |
| 2026 | **Stamp President Scholarship Finalist (150 from 46,000 applicants)** | Georgia Institute of Technology |
| 2026 | **Jack Kent Cooke semifinalist (568 from 6,500 applicants)** | Jack Kent Cooke Foundation |
| 2025 | **National Merit Finalist (15,000 students nationwide, class of 2026)** | National Merit Scholarship Corp. |
| 2025 | **Non-trivial Research Foundations (~1% acceptance rate)** | Non-trivial |
| 2024-2025 | **CyberQuest 1st place, CodeQuest 2nd place** | Lockheed Martin |
| 2024 | **USA Computing Olympiad Silver Medalist** | USACO |
| 2024 | **Presidential Service Award Gold (300+ volunteering hours total)** | AmeriCorps |
| 2023 | **Outstanding Freshman in the Field of Computer Science Award (one Class of 2026 student)** | GSMST |
